

A high-quality photograph of a Fiskars knife, likely a chef's knife, submerged in clear water. The knife is positioned vertically, with its blade pointing upwards. The water is clear, and the knife's reflection is visible on the surface. The background is a dark, textured surface, possibly a wooden cutting board or a similar material. The overall composition is clean and professional, emphasizing the knife's design and the brand's identity.

[fiskars.com/sustainability](https://fiskars.com/sustainability)

**Doing what we love brings us happiness. To really enjoy the activities we love, and make a positive impact beyond our homes, Fiskars takes action for the environment. Every product detail is designed for the best of the user and the environment, increasing sustainability and overall happiness.**

# The very first story began over 370 years ago.

**1649**

**Fiskars ironworks founded in Fiskars village**

**1832**

**Production focuses on processing iron, and Finland's first cutlery mill is founded, with a product range expanding from knives to include forks and scissors**

**1883**

**Fiskars becomes a limited company**

**1929**

**Fiskars transforms to accommodate mass production**

**1956**

**Fiskars hones its expertise in cookware**

All Fiskars cookware is manufactured at our own factory in Central Finland, in the village of Sorsakoski. The factory has been inseparable part of Sorsakoski and whole Leppävirta area since 1891, serving first as Hackman and later as Fiskars factory. Made from high-quality materials, our cookware is durable and timeless – perfectly combining innovation and Nordic craftsmanship.

# Technologies & materials explained

## Fiskars cookware materials

### Stainless steel

Stainless steel is an outstanding cookware material that's suited to all kind of cooking. Due to its natural properties, stainless steel is extremely durable, hygienic and easy to care for. Stainless steel has a naturally attractive appearance and, by default, sustains very high temperatures. All Fiskars stainless steel cookware includes an Aluminium layer for improved heat conductivity, and it enhances product performance. All Fiskars cookware products work on any hob, including induction hobs. Fiskars stainless steel cookware product lines are **All Steel**, **Norden Steel**, **Hard Face Steel** and **Functional Form Casseroles**.

### Aluminium

Aluminium has very good thermal conductivity, thus it guarantees naturally equal heat distribution to base and sides of the cookware, speeding up food preparation and saving energy. Aluminium is light to handle and excellent for everyday cooking. All Fiskars cookware products work on all hobs, including induction hobs, thanks to a special treatment of Aluminium. Fiskars Aluminium cookware product lines are **Functional Form Frying pans**, **Hard Face** and **Rotisser**.

### Cast iron

Cast iron performs best for long and gentle simmering of soups and stews, oven-baking, and also for extreme, high-temperature frying of steaks and such due to its superior heat capacity. Cast iron cookware performs better with age due to natural seasoning it accumulates during use. Cast iron is not suited for the dishwasher, and it should be exclusively hand-washed. Fiskars cast iron cookware product line is **Norden Cast iron**.

## Technologies in our products

Technology	Energy Base	OPTIHEAT™	3-layer base	3-ply technology	LZR-EDGE™
Icon					
Description	<p>Energy Base performs well on all hobs, but the ultimate benefits are evident with a ceramic hob, where Energy Base heats up to 50% faster and uses 30% less energy by transferring heat easily.</p> <p>Used in all Fiskars Aluminium cookware products.</p>	<p>OPTIHEAT™ technology protects the cookware coating from overheating on an induction hob. When the temperature of the pan exceeds 230°C, the material demagnetises until the temperature drops. OPTIHEAT™ technology activates only on an induction hob but is usable on all other hobs too, just without the demagnetising properties.</p>	<p>High-quality impact bonded 3-layer base is optimised for efficient and even heating in cookware products. The layers are formed with a thick Aluminium core between high-quality stainless steel layers.</p> <p>Used in all Fiskars stainless steel cookware products (excluding Norden Steel that is manufactured with multi-ply technology).</p>	<p>Cookware made with multi-ply technology has a stainless steel exterior and interior with an aluminium core between the steel layers. The aluminium layer is fully covered, making the product very long-lasting by preventing damage, while also providing a premium look.</p> <p>Works well on induction hobs. Heat also transfers well to the sides, making the item optimal for simmering.</p>	<p>LZR-EDGE™ technology is used in select Fiskars knives to give the knife long-lasting sharpness with the most perfect cutting angle. Sharpness lasts 4 times longer than a regular knife.</p>

# Coatings explained

Cookware, especially frying pans, are usually coated to improve non-stick properties. The non-stick properties prevent food from sticking on the surface of the cookware and make it easy to clean. Aluminium products are always coated, steel is only coated when non-stick is desired.

There are differences in the qualities and properties of the coatings. Fiskars PTFE coatings are 2-4 layers, while the 4-layer coating is the most durable and scratch resistant. The thickness and number of layers corresponds to the durability and performance of the cookware. Long-term properties are ultimately relative to the quality and processing of the coating. All Fiskars coatings are PFOA & PFOS free.

Even though coatings withstand high temperatures, the plastic blendings (PTFEs) might turn more sensitive on a very hot pan over 240°C. Our ceramic-based, non-plastic coating Ceratec™ and surface treatment Thermium™ are more heat-resistant and fare well on hot temperatures and with hard use.

All PTFE-coated pans will eventually cycle out due to coating wearing or scratching off, and the cookware should then be disposed of. Our Thermium™- and Ceratec™-treated stainless steel products can, however, be used like any other uncoated stainless steel cookware, even though non-stick properties will decrease over time. The consumer is left with a product that has all the desirable properties of stainless steel. The same applies to Thermium™-coated enameled cast iron cookware.

Wooden, silicone, plastic and other non-scratching material utensils are highly recommended to maintain the coating surface in good condition and to lengthen the coated cookware lifespan.

## FISKARS COOKWARE LIFECYCLE

1 New Fiskars cookware is purchased from a store or fiskars.com.

2 Old cookware is returned to recycling center or station when coating has worn off.

3 Old cookware at recycling points and factory's surplus materials are collected and processed into recycled materials that end up back in the cycle for re-use.

4 The recycled material is processed into new material components.

5 High-quality Fiskars cookware is manufactured at historical Sorsakoski factory, in the middle of Finland, with modern and sustainable techniques.

Overall, the recycling rate for our cookware items is very high. On average, we use high-quality **90% recycled stainless steel** and **100% recycled aluminium** with our cookware products.\*

We are very proud of the high percentages and aim to follow this **development** with other product lines.

\*Excluding Norden Steel.

Lasting Nordic design that makes **every moment** of cooking more **joyful**

Through enduring quality and purposeful Nordic design, Fiskars premium kitchenware **increase the joy** of every moment in the cooking process and bring greater **harmony** to kitchens around the world.

Fiskars' lasting and **purposeful** Nordic **design** caters to all kitchens and brings ease and enjoyment into the everyday. With Fiskars' broad range of premium cookware, knives and kitchen tools, cooking is a form of joyful self-expression and a way to connect with one another. It's not just food we share. It's **happiness**.

# Fiskars Premium

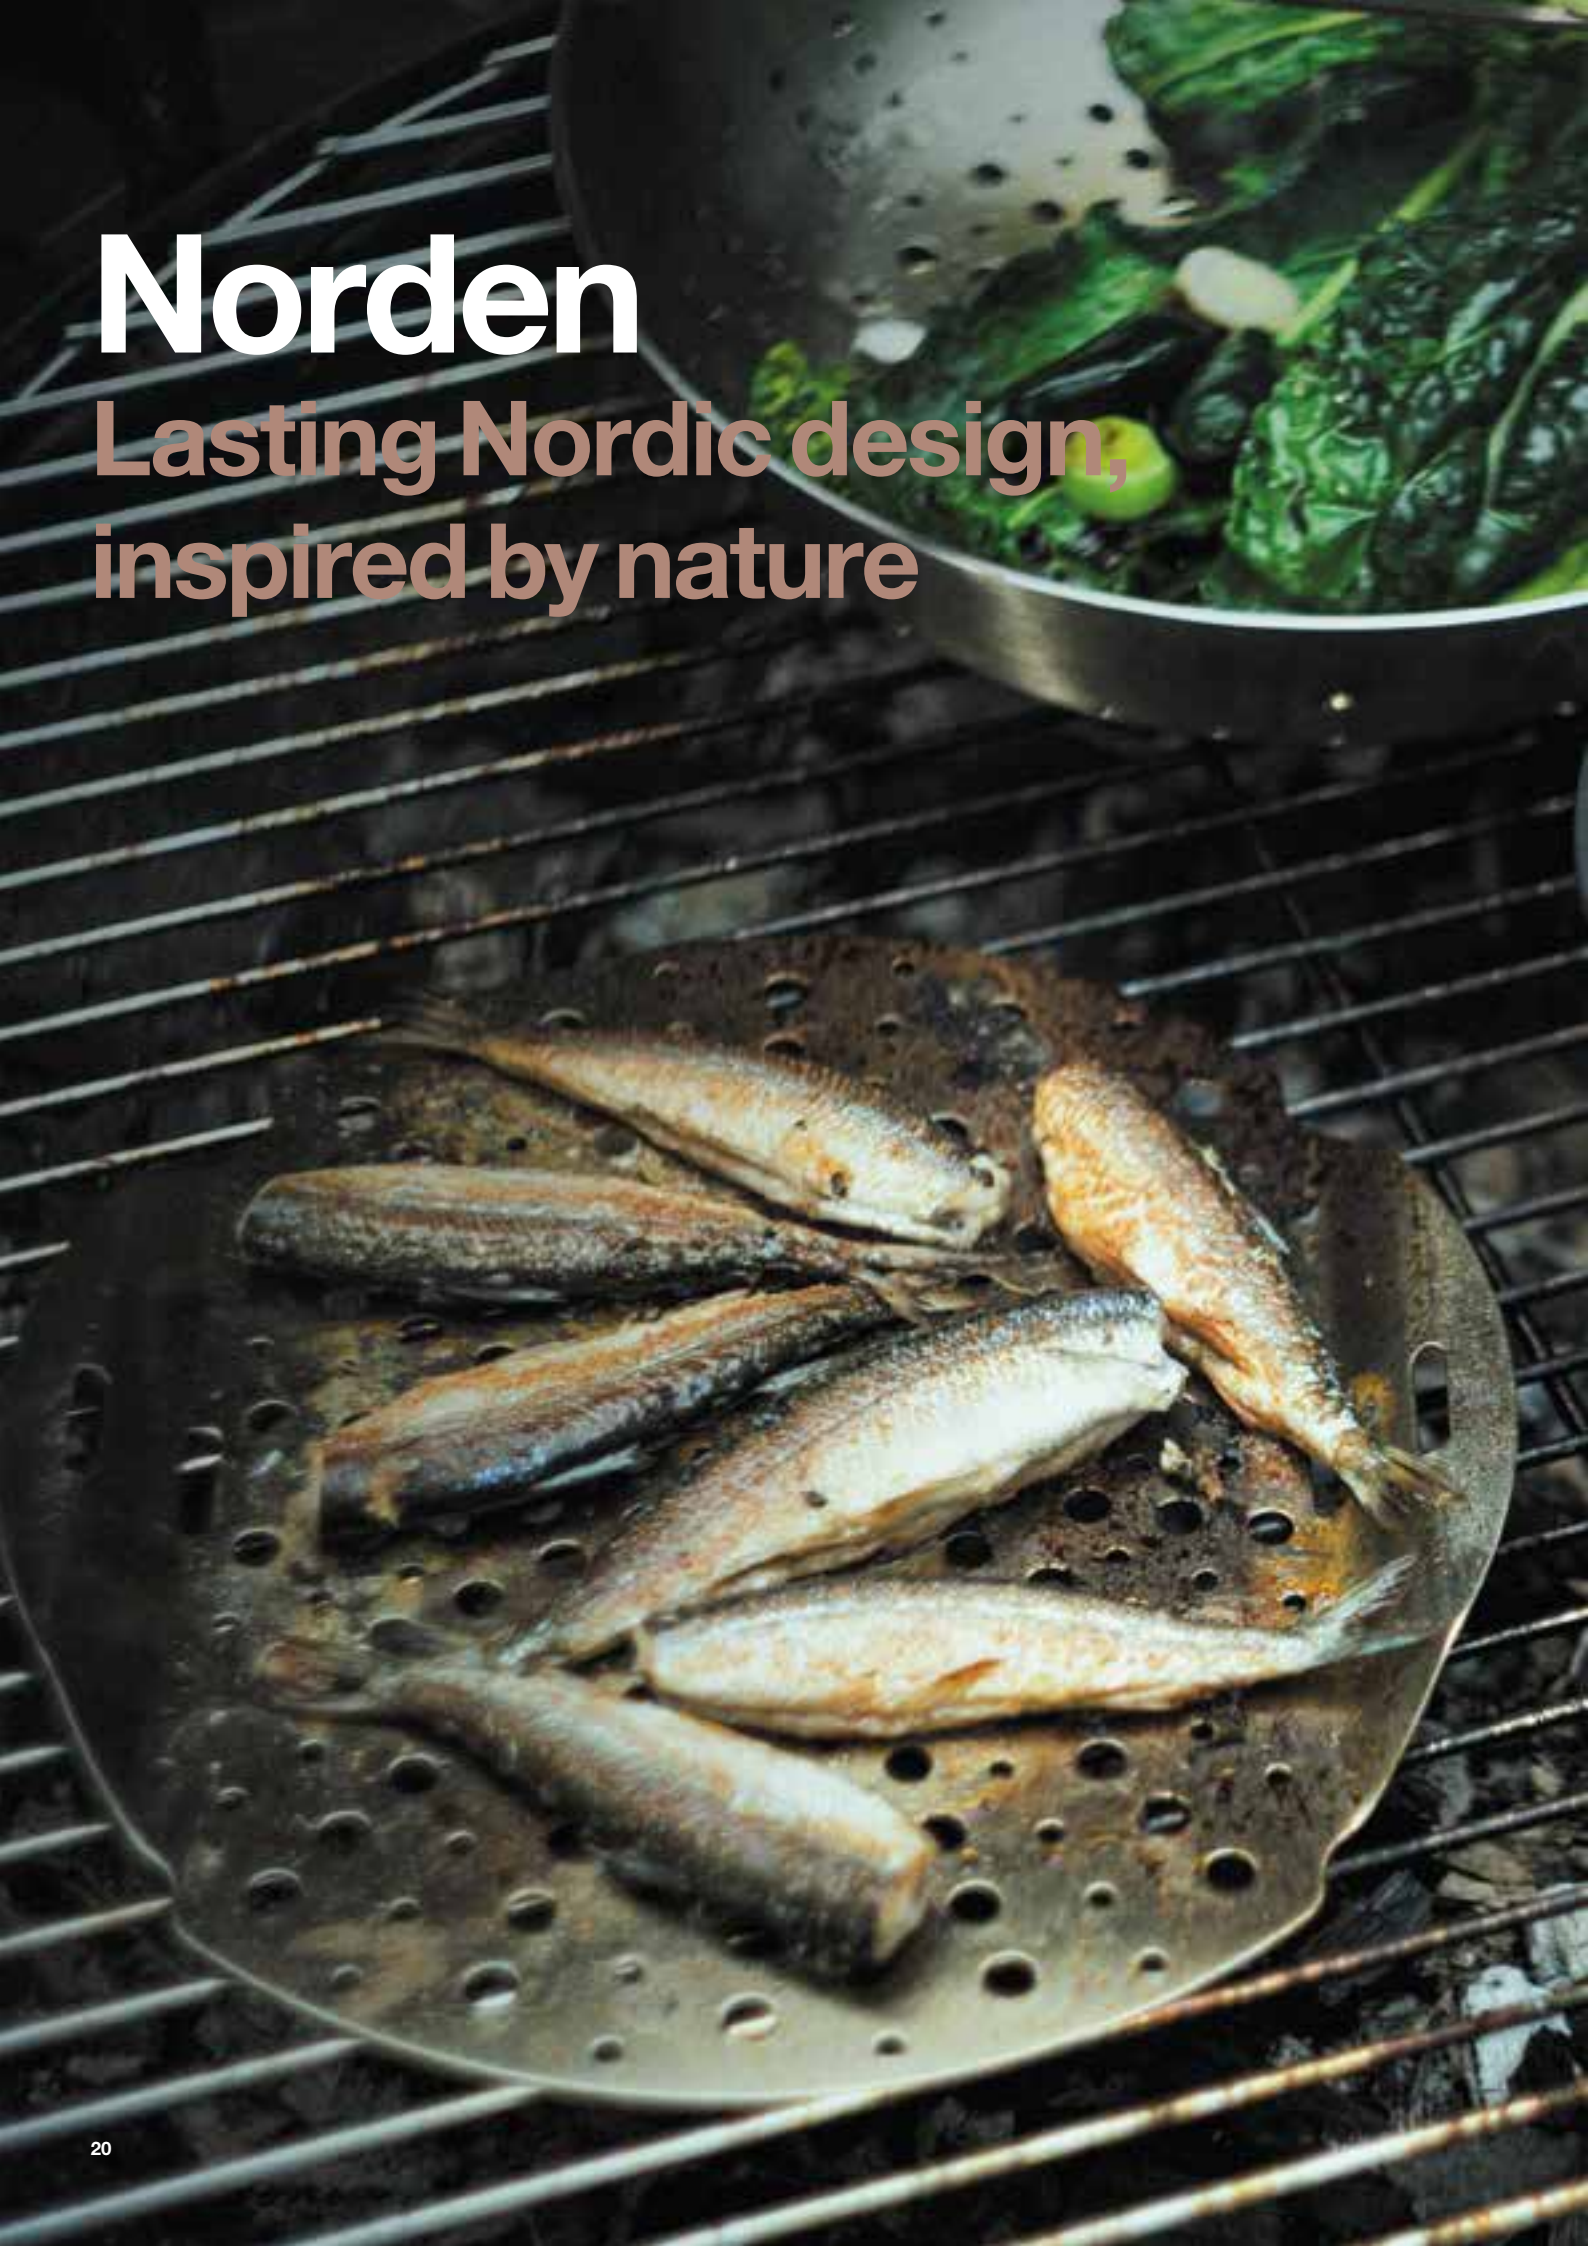

**"Cooking for me is a way to express my creativity and get inspired. I love to find new culinary experiences. High-quality tools enable me to enjoy the cooking process and to achieve the best cooking results."**

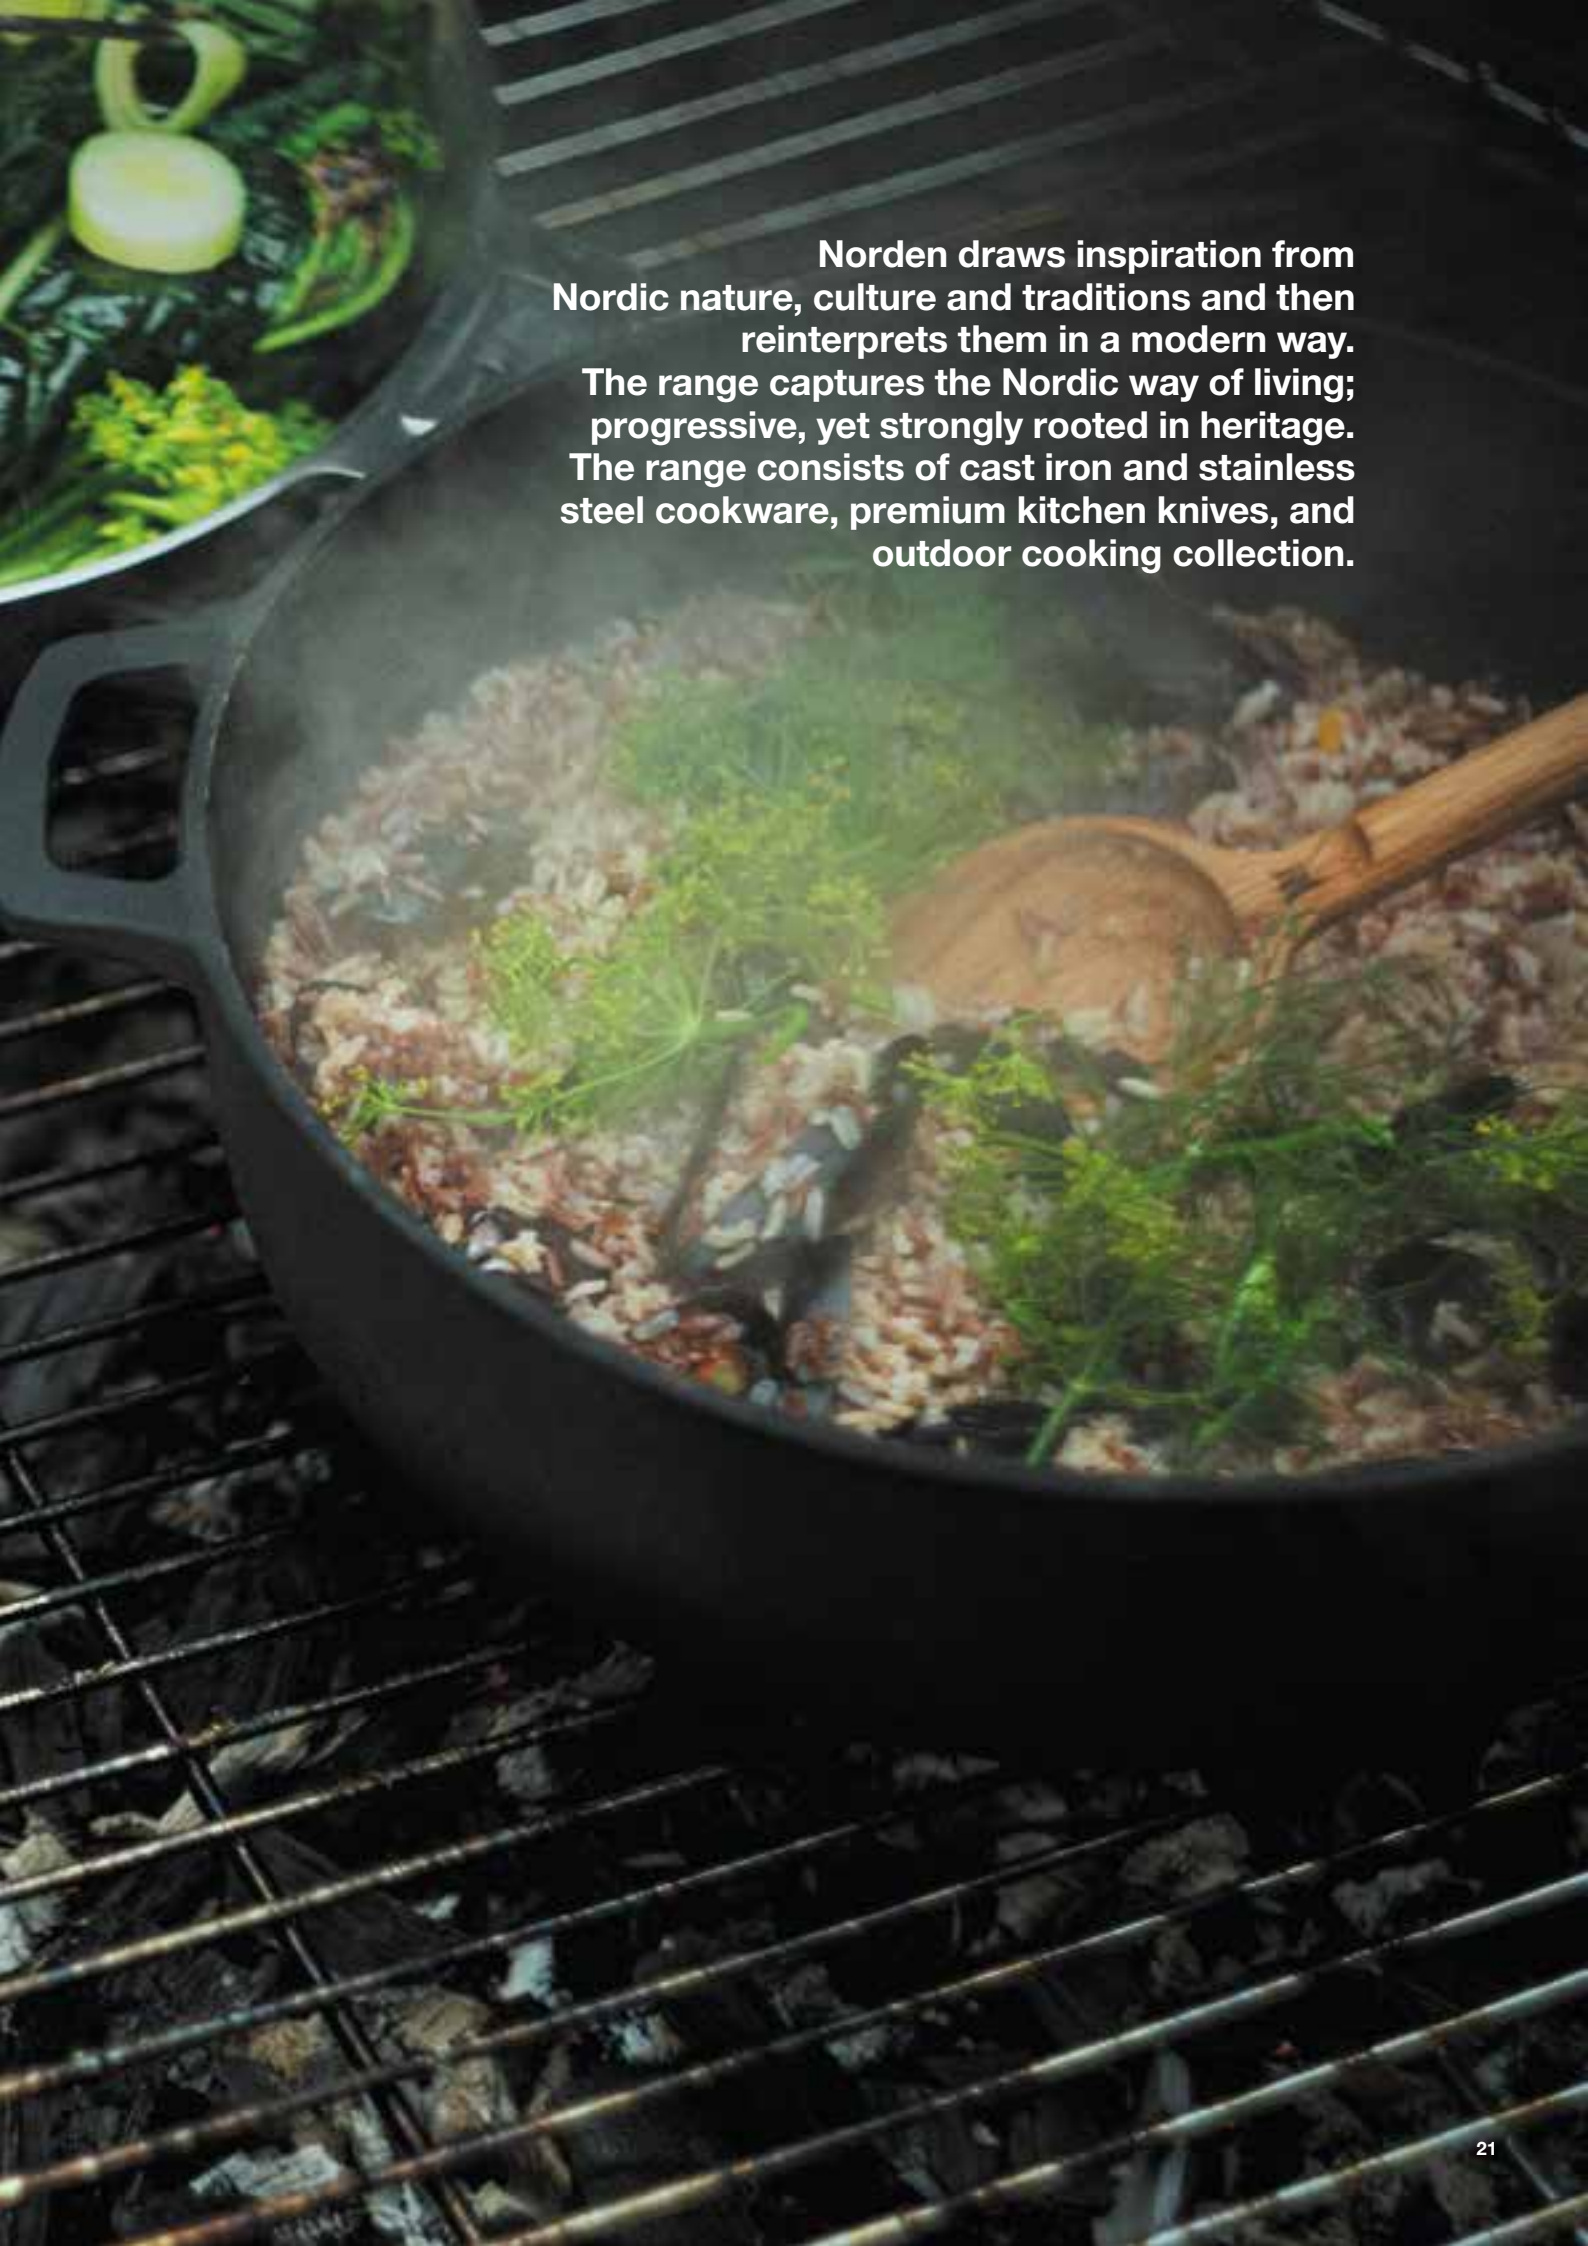

**Lars, 46**

director during the day,  
culinarian in his free-time

# Norden

Lasting Nordic design,  
inspired by nature

A black cast iron pot sits on a charcoal grill. Inside the pot, a wooden spoon is partially submerged in a mixture of rice and fresh green herbs. The grill is filled with glowing charcoal briquettes. In the upper left corner, another pot contains sliced green onions and other fresh vegetables.

**Norden draws inspiration from Nordic nature, culture and traditions and then reinterprets them in a modern way. The range captures the Nordic way of living; progressive, yet strongly rooted in heritage. The range consists of cast iron and stainless steel cookware, premium kitchen knives, and outdoor cooking collection.**

- Please note, the knife block does not work with Titanium knives.

# All Steel pure

Uncoated stainless steel  
cookware that lasts

**Pure is a new uniquely sustainable\* and very durable choice for the quality-conscious consumer.**

**With superbly functional and long-lasting designs and visually pleasing aesthetics, Pure offers you the next generation uncoated, exceptionally durable cookware that combines sustainability and carefree performance.**

**Fiskars pure uncoated pans can be used at high temperatures and put in the oven. They are ideal for browning. However, to avoid burning and food sticking, it is important to adjust the temperature gradually. Uncoated stainless steel pans can brown at lower temperatures vs. coated pans. They are extremely durable and almost eternally everlasting due to the uncoated surface.**

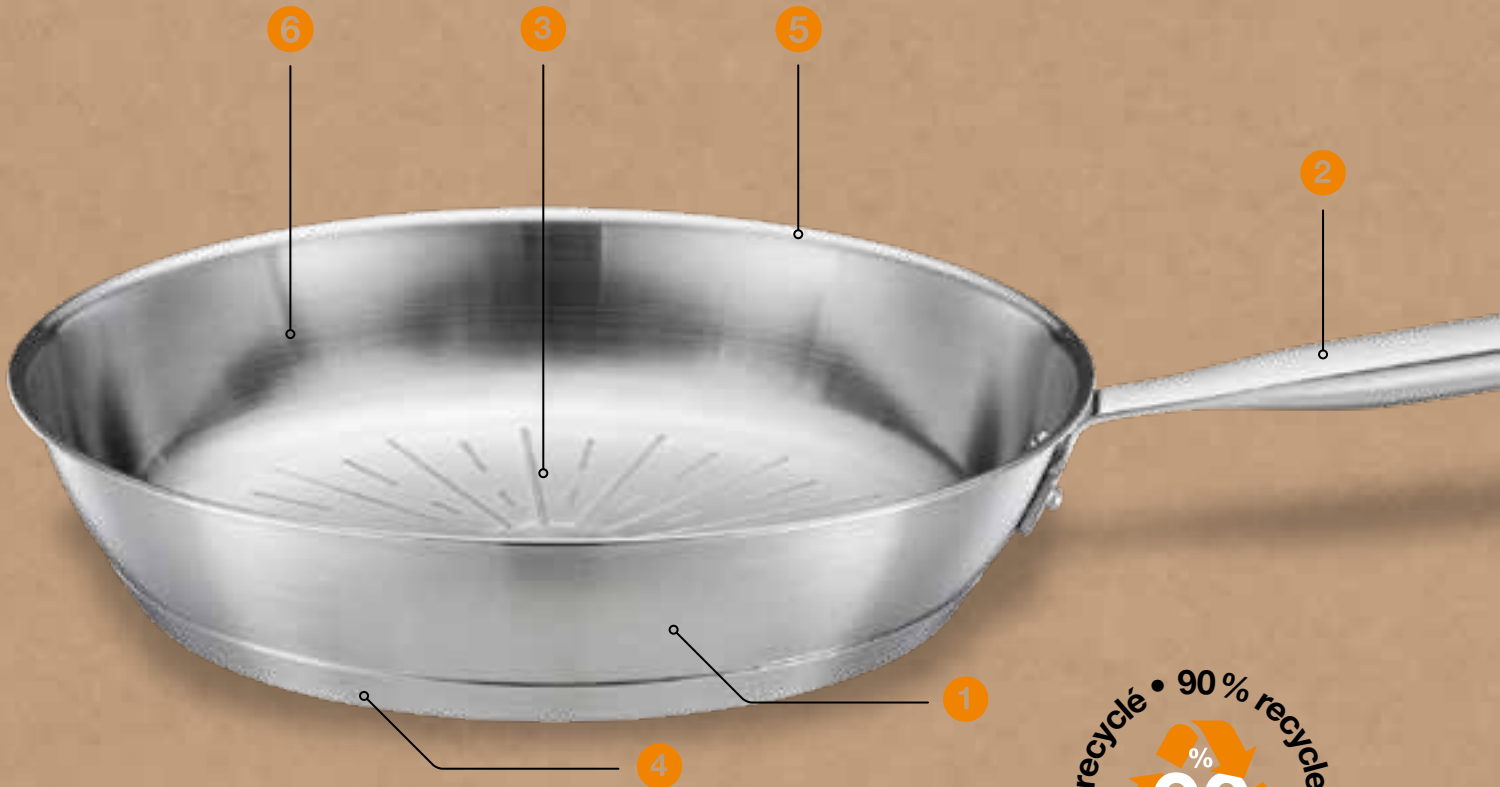

**\*Made of 90% recycled materials, easy to recycle & no plastics.**

# All Steel

## Did you know?

Uncoated stainless steel pure pans brown in lower temperatures vs. coated pans. That's why it's very important to adjust and lower frying temperatures to avoid food burning and sticking. Try yourself and find the optimal temperature for your pure cooking moment!

# All Steel

Durable performance  
for sustainable kitchens

**How we cook today shapes how we'll live tomorrow.**

**We thoughtfully select and store fresh, sustainable ingredients. We carefully craft recipes that nourish ourselves and loved ones, using only what we need and enjoying every bite of what we use. We do this to create a healthy future for ourselves, our families, our communities and our planet.**

**Fiskars All Steel allows us to make more mindful choices when equipping the kitchen as well. We prepare meals with pans, knives and utensils that reflect our commitment to the health and wellbeing of people and the environment.**

# Hard Face

Toughest non-stick  
cookware for  
everyday cooking

**Hard Face is for tough use. The next generation Hardtec Superior+™ 4-layer PTFE coating has outstanding non-stick properties together with high abrasion and scratch resistance. The fourth layer in the coating also brings additional texture to the surface. The silent silicon lids have built-in pouring functionality. The wide Hard Face assortment is recommended for the toughest everyday cooking duties.**

# Hard Face

# Hard Face features & benefits

**1 Superior coating**

The next generation of our PFOA and PFOS-free Hardtec Superior+™ coating is even more durable and scratch resistant, for tough use.

**2 Superior base**

The energy base is optimised for 50% faster heating and saves 30% energy on ceramic hobs. The thickness of the base allows heat to distribute efficiently and evenly.

**3 Safe handle**

Comfortable handle stays cool and ensures a good grip.

**4 Flat glass lid with 2 pouring options**

Lid has silent and durable, heat-resistant silicone edges to support easy handling.

**5 Works on all hobs**

**6 Made in Finland**

All Hard Face products are made in Sorsakoski factory in central Finland.

- Thick 3-layer base heats up efficiently and evenly.
- PFOA and PFOS free coating.
- Works on all hobs.

A close-up photograph of a person's hands using a knife on a wooden cutting board. The person is wearing a brown, textured jacket. The cutting board is on a dark wooden surface, and there are some green vegetable scraps on it. In the bottom foreground, a pair of orange-handled scissors is visible. The lighting is warm and focused on the hands and the cutting board.

# Hard Edge

## Sharp and tough durability for everyday use

Fiskars Hard Edge knives are designed to ensure that they stay sharp and can comfortably handle everyday cooking needs.

The knife blades are made of thick stainless steel with the revolutionary LZR-EDGE™ technology on the cutting edge. This allows the knife to stay sharp 4 times longer than standard knives. The knife handles also feature an ergonomic design with a unique 3D pattern to ensure the perfect grip.

# Hard Edge features & benefits

Hard Edge knives are designed to ensure longer lasting sharpness for all occasions.

**1 Revolutionary LZR-EDGE™ Technology**

The hero part of the Hard Edge knife is the blade and edge. The edge has been refined using LZR-EDGE™ technology giving the knife long lasting sharpness, lasting 4 times longer.

**2 Thick stainless steel blade**

The knives have thick cut stainless steel blades for durability.

**3 Comfortable grip**

A Softouch™ and three dimensionally patterned handle for a comfortable and safe grip.

**4 Easy to maintain**

The knife is easy to maintain, when needed, it is easy to re-sharpen: any sharpening tool can be used. The knife is also dishwasher safe.

EAN

- All-In premium knife sharpener set that is suitable for every knife in your kitchen.
- The set includes
  - a whetstone with two grits 1000/5000
  - a sharpening angle guide (26°)
  - a polishing leather and
  - a storage case

## To sharpen your knife, follow these steps:

### 1 Soak

Start by soaking the whetstone in water for 5-10 minutes. Water will act as lubrication when you sharpen the knife.

### 2 Grey coarse grit

After soaking the whetstone place it in the non-slip holder with the grey/coarse grit (1000) facing upwards.

### 3 Knife in angle guide

When using the sharpening angle guide, the easiest way to start is by placing the angle guide close to the handle and tighten the orange knob.

### 4 Start sharpening

Hold the knife and angle guide so that the blade meets the stone. The angle guide is supposed to softly touch the stone together with the blade. Push back and forth across the stone with smooth and steady strokes.

### 5 Sharpen remaining parts

Move the angle guide closer to the tip of the knife to sharpen the remaining parts of the blade.

### 6 Turn the knife

After one side is done, turn the knife and repeat with the other side of the blade.

### 7 White smooth grit

Now it's time to turn the whetstone to finalise the sharpening, with the white/smooth grit (5000) facing upwards. Sharpen the whole length of the blade using the angle guide and repeat for both sides of the blade.

### 8 Rinse

You're almost done here. Now remove the angle guide from the blade and rinse both the knife and the whetstone under running water and dry both with a cloth. Be careful, your knife is now super sharp!

### 9 Polishing leather

Add a final touch by polishing the blade with the provided polishing leather. Place the leather on top of the stone with the rough side up and stroke the knife carefully along the leather 3-5 times on both sides (see image).

### 10 Maintenance

Congrats, now you're done! For more information on maintaining your knives, please visit [www.fiskars.com](http://www.fiskars.com)

# Norr

Wooden handle for  
classic cutting

Fiskars Norr knives provide the authentic cutting experience for those who have a passion for genuine cooking. This timeless Nordic design piece is made of carefully selected premium materials for perfect handling.

# Norr knives features & benefits

Beautiful Nordic design and high-quality, environmentally sustainable materials.

- 1 High-quality blade**  
High-quality blade is made of hardened German steel for optimum hardness, HRC 54.
- 2 Comfortable design**  
Inspired by traditional Nordic cuisine and culture. Very comfortable to hold, and perfectly balanced. Designed by Jacob Leth-Espensen.

- 3 Durable handle**  
The handle is made from Kebony treated maple wood. Sustainable FSC®-certified maple. Kebony treatment for increased durability - 40% harder than teak.

The mark of responsible forestry

The Curious Mind of

*Oiva Toikka*

One of the greatest names in design, Finnish artist Oiva Toikka is known internationally for imaginative glass art, set and fashion design and more.

Toikka's patterns comes to life on the ergonomic handle of Fiskars general purpose scissors.

“ I’m not looking  
for perfection.  
I want it to be fun.”

The Curious Mind of

*Oiva Toikka*

# ReNew scissors

**These Fiskars scissors are skillfully crafted from recycled and renewable materials at our factory in Billnäs, Finland. The scissors handles are made from an innovative biocomposite material consisting of 66% recycled post-consumer plastic and 34% renewable cellulose fiber, a sustainable alternative to fossil-based materials. The blades themselves are also made of recycled stainless steel.**

**In addition to being made of recycled and renewable materials, these scissors, like all Fiskars products, are designed to be of highest quality and to offer long-lasting performance.**

# ReNew

– a sustainable choice for all cutting needs in creating, cooking and gardening

## Features & benefits

### 1 Made of recycled and renewable materials

Total scissors are made of 80% recycled materials and 13% renewable materials. Scissors are 100% recyclable. Scissors packaging is made of 100% recycled and recyclable paper fiber.

### 2 Sharp blades

Durable stainless steel blades are made of 85-95% recycled stainless steel.

### 3 Ergonomic design

Comfortable handles are made of 66% recycled plastic (post consumer package waste) and 34% natural cellulose fiber.

### 4 Made in Finland

These scissors are made using an eco-friendly process in our environment-, quality- and safety-certified scissors factory in Billnäs, Finland.

### 5 Tested by hand

Scissors are tested by hand at the factory. Only our very best scissors are ever cleared to leave the factory.

## Spoon

EAN

6 424002 009665

Width: 8 cm

Height: 37,2 cm

Depth: 4 cm

Weight: 0,08 kg

Retail box: 6

Art. no. 1027299

- Flexible silicone edge wipes the pan/casserole perfectly.
- Works also as a measurement spoon for 1 teaspoon, 1 dinner spoon & 0,5 dl.

## Spatula

EAN

6 424002 009672

Width: 8 cm

Height: 37,3 cm

Depth: 4,9 cm

Weight: 0,07 kg

Retail box: 6

Art. no. 1027300

- Flexible silicone edges for excellent usability.
- Convenient size and sturdy design for all frying.

## Pasta spoon

EAN

6 424002 009689

Width: 8 cm

Height: 36,4 cm

Depth: 3,8 cm

Weight: 0,07 kg

Retail box: 6

Art. no. 1027301

- Sauce tip enables scraping sauce from casserole edges.
- Integrated portion measuring tool.
- Long teeth for easy lifting of spaghetti and noodles.

## Slotted spoon

EAN

6 424002 009696

Width: 9,2 cm

Height: 37,2 cm

Depth: 4,5 cm

Weight: 0,11 kg

Retail box: 6

Art. no. 1027302

- Flexible silicone edge wipes the pan/casserole perfectly.
- Perfect for straining and stirring

## Tongs

EAN

6 424002 009702

Width: 8 cm

Height: 35,8 cm

Depth: 2,1 cm

Weight: 0,07 kg

Retail box: 6

Art. no. 1027303

- Precise silicone tips for excellent usability.
- Angled shape for easy use on a frying pan.
- Pointed teeth for perfect grip.

## Colander/steaRetail boxr

Width: 28 cm

Height: 46 cm

Depth: 9,9 cm

Weight: 0,32 kg

Retail box: 6

Art. no. 1027304

EAN

6 424002 009719

- Collapsible structure makes the colander easy to store.
- Can also be used as a steamer.

## Frying guard

Width: 30 cm

Height: 40 cm

Depth: 5,6 cm

Weight: 0,22 kg

Retail box: 6

Art. no. 1027305

EAN

6 424002 009726

- Gives the perfect frying result without the mess.
- Can be used on all pan sizes.

## Flipping spatula

Width: 8 cm

Height: 40 cm

Depth: 6,5 cm

Weight: 0,05 kg

Retail box: 6

Art. no. 1023612

EAN

6 424002 005766

- Perfect for easy frying.
- Sharp and flexible tip optimal for flipping pancakes and omelettes.

## Garlic press

Width: 8 cm

Height: 20 cm

Depth: 5 cm

Weight: 0,1 kg

Retail box: 5

Art. no. 1028361

EAN

6 424002 010340

- Easy and effortless pressing.
- Take apart structure for easy cleaning.
- Scraper to help remove pressed garlic from the grid.

## Fixed blade peeler

Width: 8 cm

Height: 27 cm

Depth: 2,4 cm

Weight: 0,04 kg

Retail box: 6

Art. no. 1014418

EAN

6 424002 000938

- Perfect for easy peeling.
- Softgrip™ handle for safe and comfortable use.

## Swivel blade peeler

Width: **8 cm**   Height: **27 cm**   Depth: **2,6 cm**   Weight: **0,04 kg**   Retail box: **6**   Art. no. **1014419**

EAN

6 424002 000945

- Perfect for easy peeling.
- Softgrip™ handle for safe and comfortable use.

## Vegetable peeler

Width: **8,2 cm**   Height: **23 cm**   Depth: **2 cm**   Weight: **0,04 kg**   Retail box: **6**   Art. no. **1016122**

EAN

6 424002 001799

- Perfect for peeling cucumbers and carrots.

## Cheese slicer for hard cheese

Width: **8 cm**   Height: **30 cm**   Depth: **2 cm**   Weight: **0,05 kg**   Retail box: **6**   Art. no. **1016129**

EAN

6 424002 001867

- An ergonomic cheese slicer perfect for slicing emmental or gouda.

## Cheese slicer for soft cheese

Width: **8 cm**   Height: **30 cm**   Depth: **2 cm**   Weight: **0,05 kg**   Retail box: **6**   Art. no. **1016128**

EAN

6 424002 001850

- Perfect for slicing edam or cheddar.
- The short stainless steel blade prevents soft cheese from sticking to the blade.

## Cheese knife

Width: **8 cm**   Height: **31,5 cm**   Depth: **2,3 cm**   Weight: **0,05 kg**   Retail box: **5**   Art. no. **1015987**

EAN

6 424002 001614

- Perfect for cutting and serving both soft and hard cheese.

## Vegetable slicer

Width: <b>8,3 cm</b>	Height: <b>32 cm</b>	Depth: <b>5,9 cm</b>	Weight: <b>0,13 kg</b>	Retail box: <b>2</b>	Art. no. <b>1014416</b>	EAN 6 424002 000921

# Edge knives

Modern all-around knife with non-stick properties

**Fiskars Edge knives have a sleek, modern design and innovative features. The specialised coating does much more than just gives the knife an attractive black finish – it makes it easier to maintain.**

# Edge knives features & benefits

Durability for easy cutting, easy cleaning and storing.

**1 Strong and thick blade for better cutting**

High-quality Japanese standard stainless steel and taper grinding ensure sharpness of blade.

**2 Ergonomic design**

Enables all grips and left/right handed use.  
Handle enables user to hold knife close to blade.

**3 Durable and easy to clean blade**

Protective non-stick PTFE-coating prevents corrosion and food from sticking to the blade.

**4 Durable handle**

Durable and impact resistant ABS plastic handle is easy to keep clean.

# Edge knives

reddot design award  
winner 2013

Retail box: 5

Art. no. 1003093

- Long, strong knife with serrated blade.
- Cuts effortlessly through hard bread crusts.

## Roll-Sharp™ knife sharpener

EAN

6 424009 787009

Width: 8,8 cm

Height: 23,3 cm

Depth: 4 cm

Weight: 0,09 kg

Retail box: 5

Art. no. 1003098

reddot design award  
winner 2012

- Easy to use sharpener with ceramic grindstone and non-slip base for both right- and left-handed use.
- Ensures an optimal cutting edge and lifelong performance.
- Easy to take apart for cleaning.
- Also for thick blades such as bigger kitchen knives and cleavers.

## Knife block with 5 knives

EAN

6 424009 787917

Width: 18,7 cm

Height: 39 cm

Depth: 8 cm

Weight: 1,61 kg

Retail box: 4

Art. no. 1003099

- Knife block that you can mount on the wall, keep in the drawer or have on the counter.
- The knife block includes:
  - peeling knife
  - tomato knife
  - bread knife, cook's knife large and Santoku knife.

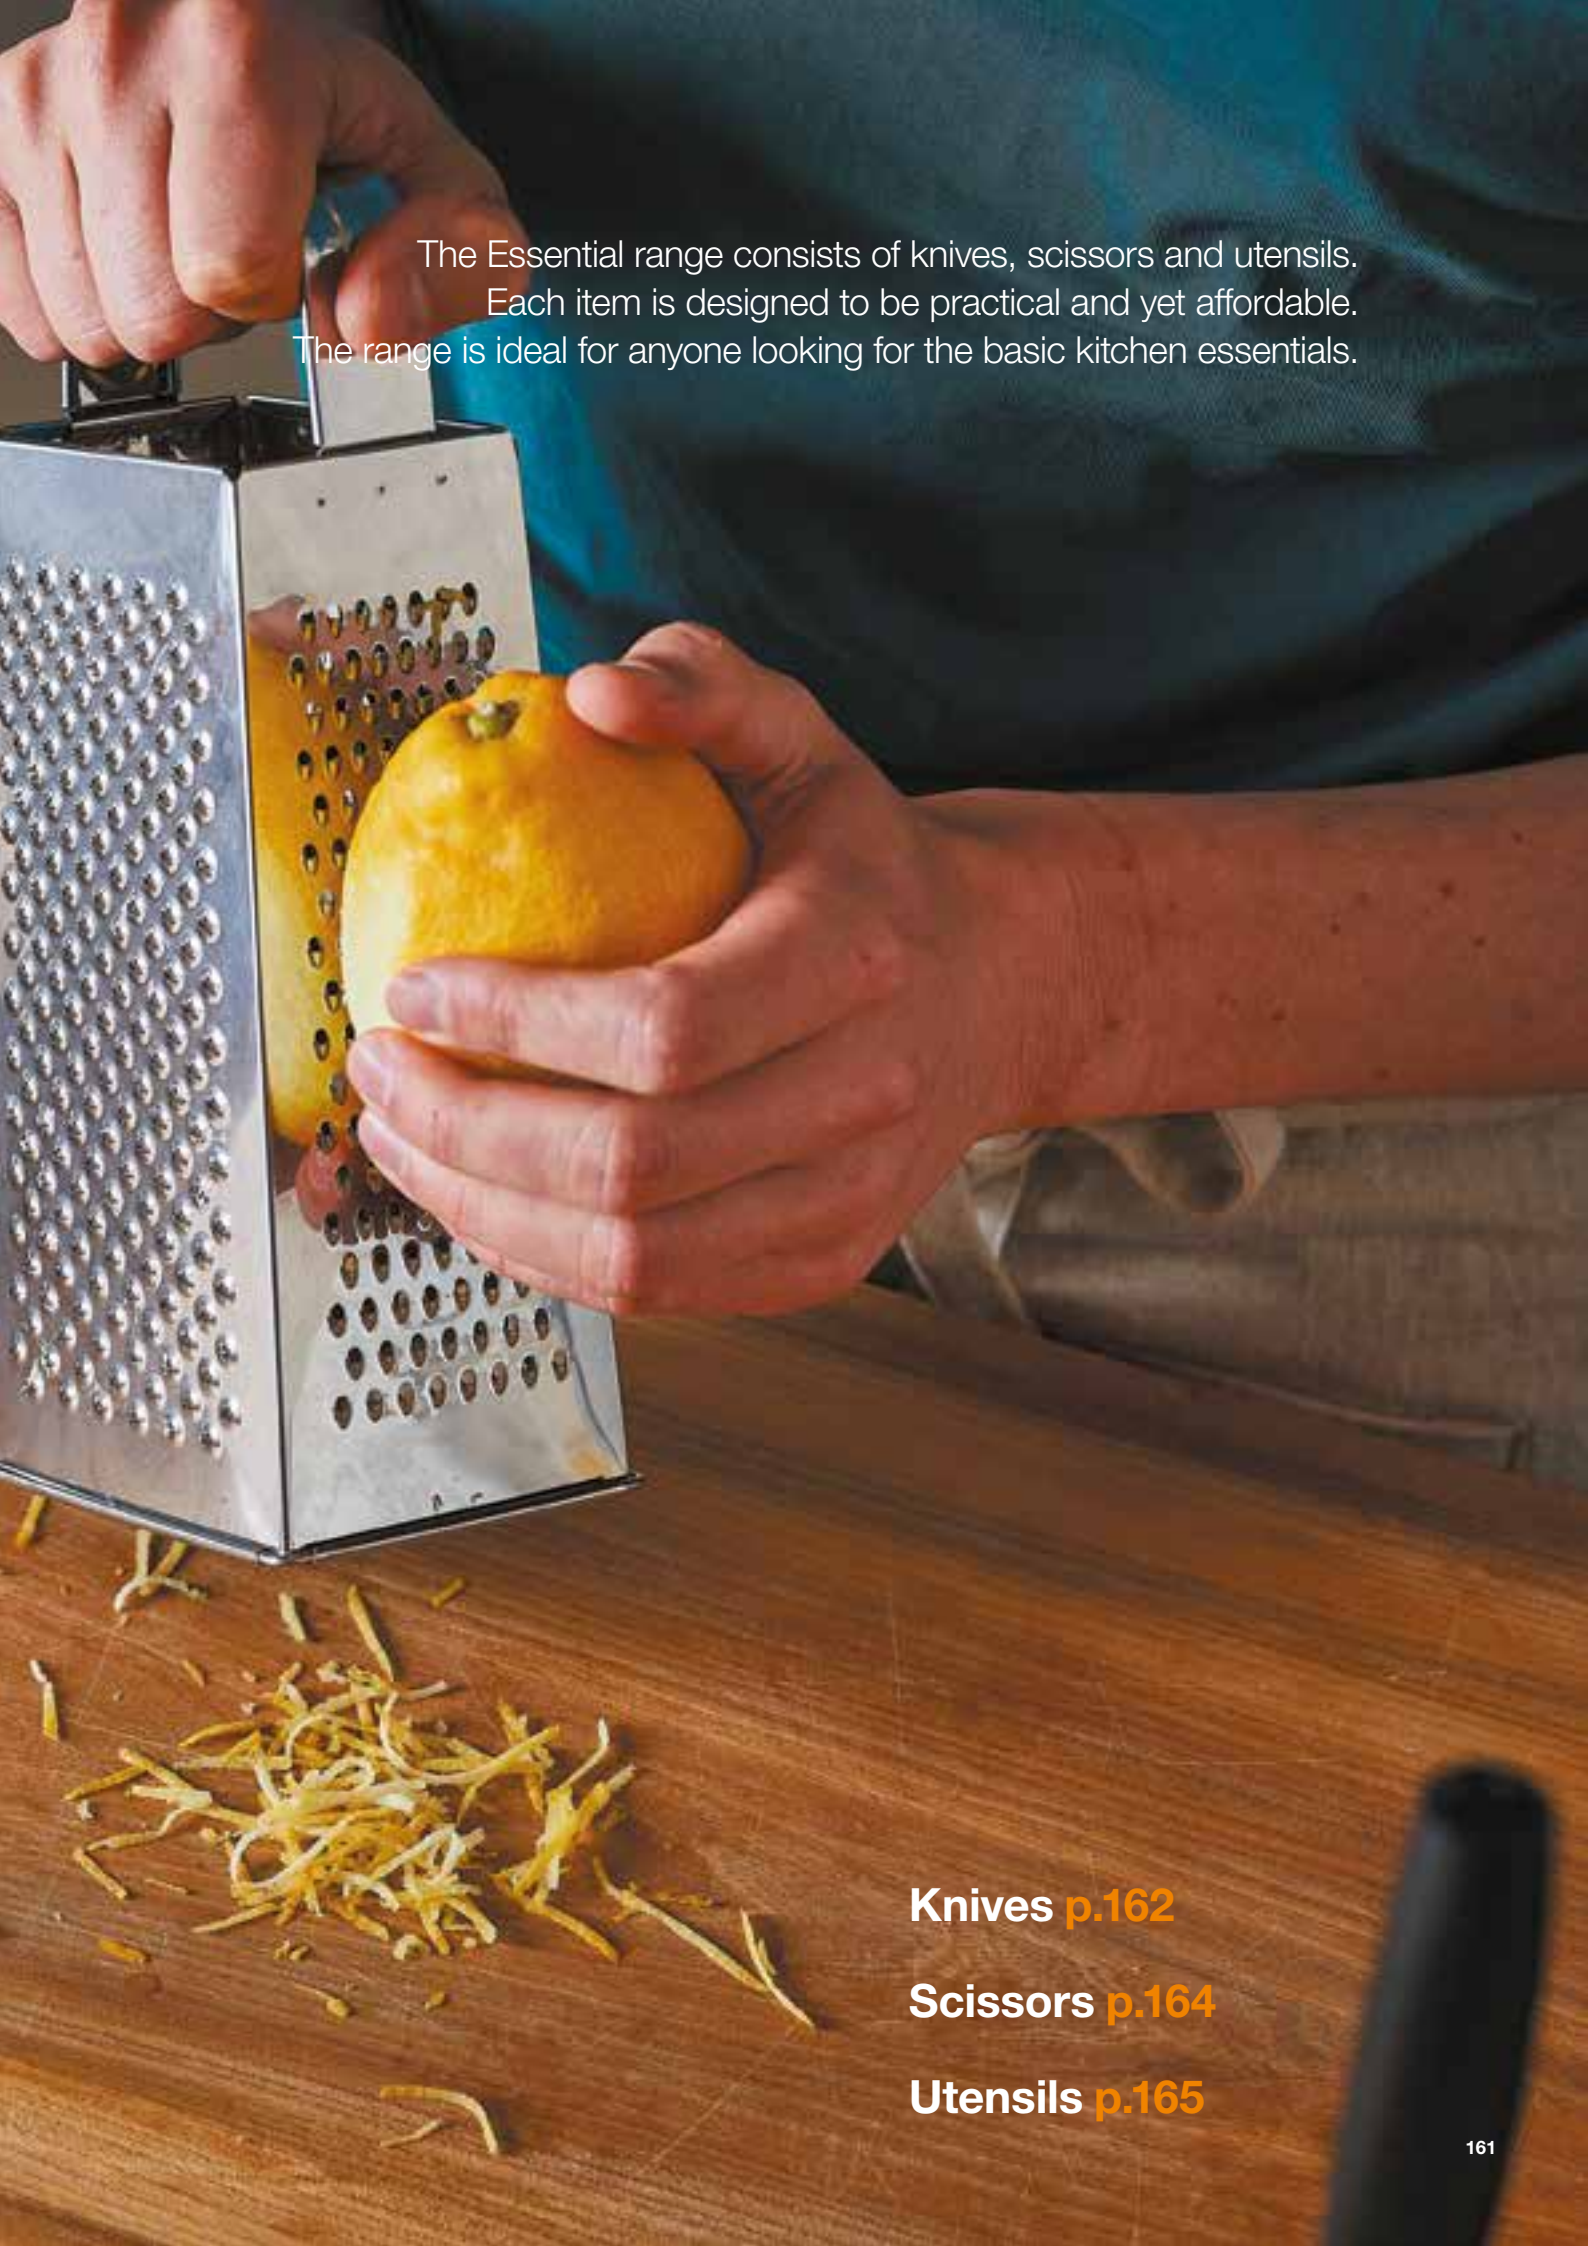

# Essential

## Convenient all-around cutting

A close-up photograph of a person's hands grating a yellow lemon on a silver metal grater. The grater is held in the left hand, and the lemon is being pressed against it with the right hand. Shredded lemon zest is falling onto a wooden cutting board below. The person is wearing a blue t-shirt. The background is slightly blurred, showing a wooden surface and a metal object.

The Essential range consists of knives, scissors and utensils.  
Each item is designed to be practical and yet affordable.  
The range is ideal for anyone looking for the basic kitchen essentials.

EAN

- Angle of the stainless steel blade ensures that the cheese does not break while cutting.

## Soft cheese slicer

Width: <b>7,5 cm</b>	Height: <b>17 cm</b>	Depth: <b>1,8 cm</b>	Weight: <b>0,03 kg</b>	Retail box: <b>5</b>	Art. no. <b>1023790</b>
----------------------	----------------------	----------------------	------------------------	----------------------	-------------------------

EAN

- The short stainless steel blade prevents soft cheese from sticking to the blade.

## Baking brush

Width: **6 cm**

Height: **29 cm**

Depth: **1,5 cm**

Weight: **0,03 kg**

Retail box: **10**

Art. no. **1023802**

EAN

6 424002 006459

- Brush with heat-resistant natural bristles.
- Design by Tobias Wandrup.

## Coarse grater

Width: **6 cm**

Height: **35,8 cm**

Depth: **0,8 cm**

Weight: **0,05 kg**

Retail box: **10**

Art. no. **1023803**

EAN

6 424002 006466

- Scraper with asymmetrical silicone head that can withstand temperatures as high as 180°C.
- Easy to use for scraping at different angles.
- Design by Tobias Wandrup.

## Fine grater

Width: **6,8 cm**

Height: **38 cm**

Depth: **4 cm**

Weight: **0,11 kg**

Retail box: **10**

Art. no. **1023804**

EAN

6 424002 006473

- Large cooking spoon.
- Pointed shape that makes it easy to get into all corners.
- Design by Tobias Wandrup.

## Box grater

Width: **6 cm**

Height: **38 cm**

Depth: **5,5 cm**

Weight: **0,04 kg**

Retail box: **10**

Art. no. **1023805**

EAN

6 424002 006480

- Pasta spoon that ensures good grip on pasta while allowing cooking water to drain away.
- Hole can be used to measure 1 portion of spaghetti.
- Design by Tobias Wandrup.

## Egg slicer

Width: **8 cm**

Height: **38 cm**

Depth: **8,5 cm**

Weight: **0,08 kg**

Retail box: **10**

Art. no. **1023806**

EAN

6 424002 006497

- Drip-free edge ideal for both right- and left-handed users.
- Capacity 100 ml.
- Design by Tobias Wandrup.

## Fruit juicer

Width: <b>6 cm</b>	Height: <b>38 cm</b>	Depth: <b>5 cm</b>	Weight: <b>0,03 kg</b>	Retail box: <b>10</b>	Art. no. <b>1023807</b>

## Knives

**The proper knife can make all the difference when it comes to preparing your ingredients. Not only is it essential to choose the correct style of knives for the dish and tasks at hand, you'll also need to consider which features — including comfort, aesthetics, longevity and more — make a knife or kitchen knife set ideal for you and your kitchen. Fiskars knows the importance of equipping your kitchen with the right tools, and we offer not only an inclusive, thoughtful assortment of knife styles, but also ranges that fit all of your must-haves and suit your personal preferences.**

### MAINTENANCE

The better a Fiskars knife is looked after, the longer the intervals, before it needs sharpening. However, it is perfectly normal for a knife to need sharpening every once in a while to maintain a perfect cutting edge. A knife stays sharp longer if you make sure to always cut on a suitable surface such as a chopping board made of wood or plastic. You should never use the knife directly on hard kitchen surfaces as this will blunt the edge.

Professional chefs use a sharpening tool each time when using a knife, to make sure it is sharp and ready for use. In normal domestic kitchens, it is not necessary to sharpen your knives as often. It is enough to either sharpen them at regular intervals or simply when they need it. Fiskars knives made of steel, have a hardness of between HRC 52 and HRC 58, which makes them ideal for everyday household use. Sharpening also made easy, using either a Fiskars Roll-Sharp™, a Fiskars sharpening steel or a Fiskars Whetstone.

Using a Fiskars Roll-Sharp™ for getting the job done quickly and easily. The Roll-Sharp™ should be placed on a flat surface, and the blade of the knife pushed backwards and forwards through it, 15-20 times. This makes sure the sharpening takes place at exactly the right angle. It is important that you move the knife backwards as well as forwards to make sure it gets sharpened on both sides. Using a sharpening steel or a whetstone requires some skill. The total sharpening angle of the knife is determining in which degree angle the sharpening should be done. With a sharpening steel the knife should be passed down the sharpening steel at the optimal angle each way,

and repeated on the other side. Use long, even strokes. The Fiskars® Whetstone Knife Sharpener includes all equipment that is needed for sharpening a knife. This extremely effective knife sharpener is suitable for use on all Fiskars® knives, including Titanium knives, which can only be sharpened with a sharpening stone. The package contains detailed instructions for safe, comfortable at-home knife sharpening. Irrespective of which method you prefer to use to keep your Fiskars knives sharp, you should rinse off the knife using hot water and dry it once you are finished.

### CLEANING

Most Fiskars knives can be washed in the the dishwasher. Norden, Titanium, Norr & All Steel knives should be washed by hand. When washing your knives by hand, rinse and dry them off straight after washing. Fiskars knives must not be left to soak. It is also important not to allow food remains to dry on the surface of the knife, because acids present in the food residue will damage the knife in the long run. If you do put Fiskars knives in the dishwasher, it is a good idea to make sure they do not come into contact with other utensils, dishes or cutlery, because this will cause damage to the cutting edge.

Small amounts of rust are sometimes present in dishwashers of all kinds, and these can spread around while the dishwasher is running. These rust spots can stem from the inside of the dishwasher itself, or from other items being washed. They may also have been left behind by previous washes. If you prefer to wash your Fiskars knives in the dishwasher, open the door to let the steam escape. It is also a good idea to dry off the knives with a dry cloth once the dishwasher cycle is complete. If rust spots do appear on your knives you can remove them by using a regular steel cleaning product.

### STORING

Most knives quickly become blunt, if they are just placed in a drawer, because the cutting edge gets damaged by movement and contact with other items. To keep Fiskars knives sharp, they should either be placed in a knife block or on a magnetic wall rack.

## Scissors

The handles of all Fiskars scissors are injection-moulded directly onto the blades. This makes them as hygienic as possible, because there are no cracks and gaps in which bacteria can accumulate. Our handles are made of impact-resistant plastic.

The nickel-free blades are precision-ground, and our **Classic, Functional Form, ReNew, Fiskars X littala** as well as **Fiskars X Moomin** scissors are made of hardened Swedish Sandvik steel with a hardness of HRC 57. The scissors that have a screw enables easy adjustment of blade tension.

### MAINTENANCE

Most of the handles on Fiskars Classic scissors are made of polybutylene terephthalate (PBT), a plastic that can be sterilised effectively using either gamma rays or an autoclave. If you use an autoclave, the temperature should not exceed 137°C. It is a good idea to keep the blades sharp by regular use of a Fiskars Clip-Sharp™. Fiskars scissors are generally dishwasher safe.

### STORING

Some Fiskars scissors are sold in a storage cover that makes sure no one catches their fingers or hands on the points if the scissors are lying around or are in a drawer. The cover also helps protect the scissors against damage, and keeps them sharp longer.

## Cutlery

All Fiskars cutlery is made of stainless steel. Despite the name, no steel of any type can be absolutely resistant to external influences. Stainless steel is a name for steel that is rust-resistant, and where any small particles of rust can easily be removed using steel cleaner.

### CLEANING

New cutlery should always be washed before first time use. To keep Fiskars cutlery looking good for as long as possible, it is advisable to polish it with a regular steel cleaning product at least once a year.

Handwashing is recommended for Fiskars cutlery to keep the items in good condition. Cutlery should be dried carefully after washing. If cutlery is placed in the dishwasher, it should be rinsed beforehand. Once the dishwasher cycle is complete, the door should be opened to let the steam escape. To get the very best result, cutlery should be dried with a cloth once the dishwasher cycle is complete.

Small amounts of rust are sometimes present in dishwashers of all kinds, and these can spread around while the dishwasher is running. These rust spots can stem from the inside of the dishwasher itself, or from other items being washed. They may also have been left behind by previous washes. If rust spots do appear on your cutlery, you can remove them by using a regular steel cleaning product.

# Service and care

## Cookware

**Fiskars uses durable materials of high-quality and also invests in R&D in order to make the best possible cookware, every day.**

### ALUMINIUM, STAINLESS STEEL AND CAST IRON FOR THE BEST POTS AND PANS

As a core material for coated pans aluminium beats all others thanks to its phenomenal heat conductivity. Also the sides of the pan heat the food. Aluminium pans are easy to handle because aluminium is a light metal. It is also a soft material, which is why we coat the entire pan so it can withstand wear much better. Stainless steel is extremely durable, easy to care for and to clean. Stainless steel withstands very high temperatures and corrosive substances, such as acids. Only highly concentrated solutions of cooking salt and extremely strong acids can damage a stainless steel surface. Products with plastic fittings are oven safe up to 150 °C and products with stainless steel fittings up to 250 °C. Cast iron cookware conducts heat extremely well. The enamel protects the cookware from rusting. Even though the dish is incredibly durable, the enamel glaze can flake or peel if it is hit against hard objects.

### COATINGS

The quality of the coating is essential and therefore Fiskars is constantly working to make coatings stronger and to further improving their non-stick properties. The Fiskars PTFE-coatings have excellent non-stick properties. The advantages of this coating include its hardwearing nature and effective corrosion protection. For a longer life span, please use plastic and wooden utensils.

### USE AND MAINTENANCE

Put some oil or a couple of tablespoons of water in the pan before starting to cook. Do not heat up an empty pan. Once the oil has browned or the water has evaporated, the pan is hot enough for frying. Fry on moderate heat. Do not add salt before the water is boiling, and do not store food in coated pans. Hot cookware should not be put in cold water as the temperature shock may cause the base to become uneven.

### CLEANING

Wash the cookware before using it for the first time and clean the cookware immediately after use. All products are dishwasher safe. Washing coated aluminium and stainless steel cookware by hand will prolong their life span.

The new Norden cast iron & stainless steel cookware and frying pans should be hand washed only. Thoroughly dry the cast iron cookware after washing. This will prevent rust forming on the edges, as the edges are not protected by the enamel.

—  
! All Fiskars Kitchen products are officially approved for use in direct contact with food products.

Fiskars has championed the ageless principles of high quality, intuitive and sustainable design since 1649. We empower every enthusiast to follow their passions and create the life they want. We believe that making our daily activities enjoyable, inspiring and sustainable builds happiness and wellbeing that extends beyond our homes – to our families, our friends, our communities, and our planet.
